Box No. VIII Certain observations on the international application

The following observations on the clarity of the claims, description, and drawings or on the question whether the claims are fully supported by the description, are made:

The "discharge electrode" described in claims 1-15 can mean a discharge electrode not for cup-shaped cold-cathode discharge lamp, but what is disclosed in the meaning of PCT Rule 5 is only a discharge electrode for a cup-shaped cold-cathode discharge lamp, which is not supported in the meaning of PCT Rule 6.
